Streamlined Forensic Reporting

Streamlined Forensic Reporting (SFR) has received the support of my predecessors since its introduction in 2012. I am very pleased to continue that support for this important process which enables the effective and timely reporting of forensic information into the Criminal Justice System.

The new Streamlined Forensic Reporting Guidance, which was launched on 31st July 2020, has for the first time brought together in one place all relevant documentation and is publicly available to download. I am sure this will assist all those involved in court proceedings to use the SFR process effectively.
